*You can quickly cook fresh corn in the microwave at high power. Shuck the corn and put on a plate - place in the microwave. To calculate how long to cook it - Start with 3 minutes for the first cob, then add 1 minute for each additional. Three cobs = 5 minutes in the microwave.

3 Clever Idea

I love using this salad as a pita pocket stuffer sandwich, just place in the pita, add a couple of slices of avocado and you've got lunch. It's also yummy as a topper for a piece of fish from the grill. Once you make this salad - you'll find lots of ways to enjoy it!

Buttonwood Grove Rosé

Finger Lakes NY
About \$16

Bright berry aromas that jump out of the glass? Yes please. Its time for Rosé! Although summer is when rosé wine comes to mind most often - rosé like this one can be savored all year long. This was my final week of Finger Lakes Wine Camp, and with the last class, we tasted other varietals from the region, including this vibrant rosé from Buttonwood Grove. Made from the Cabernet Franc grape, it has enough "stuffing" to stand up to not only salads and veggies, but fish and chicken from the grill. I especially like it with dishes that have a little zing to them - like the jalapeno - the berry flavors in the wine rock!
